

Resources and Activities

Resources and activities are how you add content and interactivity to your class. (Make sure you are in the Edit mode to access Resources and Activities).

To add content:

To add interaction:

For complete explanations and documentation of Activities and Resources, References and Guidelines please refer to the the Moodle.Org Web site, Teacher Documentation:

http://docs.moodle.org/en/Teacher_documentation

Teacher documentation

- [Getting started for teachers page link](#) – New at this Moodle thing? The "Getting started" page gives a general overview of all the features of a course. There are lots of internal links that will allow you to expand your knowledge. Welcome !

You can get back to this page by using the Teacher link in the Documentation menu on the left on most MoodleDoc pages.

Reference

- [Category:Teacher](#)
