

## Teacher/Student View

You can toggle between the faculty and student view - this allows you to view the page exactly the way the students will see it:

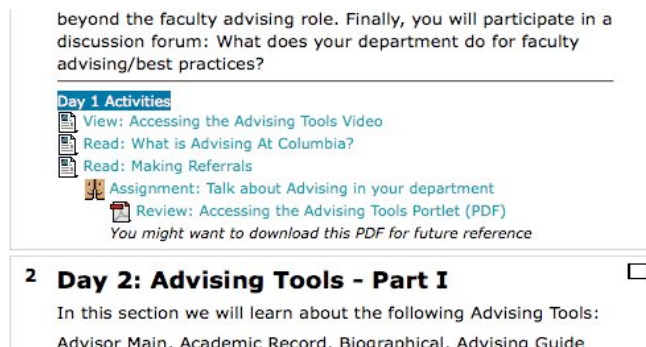

## Editing

You can also toggle between editing and non-editing mode by turning editing on and off. When editing is turned on, you see all of the editing icons and tools and can add resources, etc.

Here's what the screen looks like with editing on:

The same screen with editing off:

An explanation of the various editing icons is included in the Glossary of icons.
